12/7/70

Dear Howard,

Thanks for your warm letter of the 2nd and the enclosures, which I'll read intermittently. Good letter to Eckhoff. Gary also did some work on this that you can see when you are here. I can type only briefly. Bursitis. I'm saving most of that for work on the book, now about done.

As tou say, there are things we can talk about better than write about.

I have but the single speaker assembly, not a matched pair. That is a rather costly one, and your friend who can get this reasonably (if he has a way, may find matching it expensive. This is a University combo, with cross-over net, as I recall, with four speakers, the woofer 15". It is in an oak corner cabinet. I'll take anything reasonable I can get for it.

There is some stuff en roite to you via Dick. I'll be sneding more soon.

The rest will have to wait.

Best,
